Call for application:
Nurse (Ref. Inf/19 I)

Clarifications

IRCCS ISMETT clarifies that the sentence "*under the supervision of the clinical coordinator of the unit of reference*" included in the "*Call for application: Nurse (Ref. Inf./19 I)*" should be interpreted as follows: the nurses are managed by a “coordinator”, i.e. a nursing role who "*coordinates the assigned staff in the operating unit of reference; establishes the working schedules in compliance with the organizational autonomy of the assigned staff and with of the requirements of teamwork; supports training in the operating unit and can also be assigned as tutor in training programs.*"
